

PATCHWORK

Keeping Technology Simple

BlackBox

The BlackBox Air is the latest addition to Patchwork's range of guidance systems for farmers and contractors.

A Bluetooth GPS combined with a state of the art Android App that retains the existing look and feel of the BlackBox, using modern technology. Patchwork has won many accolades for ease of use over the years for it's BlackBox. The BlackBox Air is no exception.

Supplied with everything you need to get started in minutes. Patchwork has been providing GPS solutions to Agriculture since 1998.
